

A Montgomery County Transportation Management Association

The PTMA is looking to promote businesses and their employees that utilize alternatives forms of transportation to commute to work. For example, if your company currently administers a carpool or vanpool program, operates a last mile connector shuttle bus, provides incentives such as Ride Eco or preferred parking or has a transit stop near your location, let us know. We will highlight your business and your story on our website and Facebook page for one month – **FREE** of charge!

Maybe your employees arrange their own alternative forms of transportation. Do you know someone that carpools, vanpools, takes transit, bikes or walks to work? Nominate them for the PTMA’s Commuter of the Month. Both the commuter AND the business will be featured on our website and Facebook page. The commuter will receive a certificate from the PTMA recognizing them as “Commuter of the Month”. At year end, the PTMA will select one business and one commuter to honor at our Annual Meeting.

How can you take advantage of this? Just fill out the form below and email it to execdir@ptma-mc.org.

Name of Commuter:

Contact Information:

What method of alternative form of transportation is used (carpool, vanpool, bus, rail, biking, walking)?

How long have you this method been used?

How often is it used?

What are the benefits of using this method (Examples include: sustainability, environmental policy, perks for employees, saving money, not sitting in traffic, using the time to read, sleep, listen to music)?

What advice would you give to a business/someone who is considering using transportation demand management strategies?

Any stories – funny or otherwise – you would like to share that happened during the implementation of your program or your commute.
